EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael Anslinger on 12/3/2010.

The application has been amended as follows:

In claim 1, line 2 -- "determining if the player is enrolled in a player tracking system;" -- has been inserted after -- "said method comprising:"--.

In claim 1, line 4 -- ", wherein the preselected threshold is determined based on player enrollment in the player tracking system;" -- has been inserted after -- "an audio message" --.

In claim 7, line 7 -- " determine if the player is enrolled in a player tracking system," -- has been inserted after -- "determiner and structured to" --.

In claim 7, line 10 -- "only" -- has been omitted.

In claim 7, line 11 -- "the player enrollment in the player tracking system," -- has been inserted after -- "the prestored trigger and"--.

In claim 7, line 12 -- "based only on the comparison of the wager to the prestored trigger" -- has been omitted.

Claims 1-5, 7-21 & 23 are allowed. The following is an examiner's statement of reasons for allowance:

The claims as currently amended are allowed because no references, or reasonable combination thereof could be found, which disclose, teach or suggest, the recited features of the independent claims 1, 7, 16 & 21. For example, the prior art fails to disclose or teach accessing a secondary game during the play of a primary game, said system comprising, presenting a first preselected wager threshold and a second preselected wager threshold, that is different from the first wager threshold to the player; a data input configured to accept wager from the player; a player tracking device configured to accept a player tracking card, a comparator configured to compare the wager to the one of the first and second wager thresholds, wherein the preselected wager threshold is determined based on player's enrollment in the player tracking system; initiating the secondary game based only on the comparison of the accepted wager to the preselected wager threshold and regardless of an outcome of the primary game, as required by the independent claims 1, 7, 16 & 21. For similar reasons, the prior art fails to disclose or teach the features of the claims 1-5, 7-21 & 23.

The combination of Baerlocher (Patent Publication 2003/0060266), Stone (Patent 5,947,821), Rowe (Patent 6,620,046) and Paulsen (Patent Publication 2002/0142846) teach a gaming device that determines, based on wagered number of credits and primary game outcome, if the player is eligible for a bonus game. However, the

combination of Baerlocher, Stone, Rowe and Paulsen fails to teach each and every recited features of the independent claims 1, 7, 16 & 21.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to SUNIT PANDYA whose telephone number is (571)272-2823. The examiner can normally be reached on M-Th 8 - 5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Dmitry Suhol can be reached on 571-272-4430. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
